

*Amendments*

*In the Claims:*

Please cancel claims 58 and 62 without prejudice or disclaimer.

Please add the following new claims:

63. (New) A composition comprising a plurality of double-stranded DNA fragments of different lengths, wherein fragments of each length are present in an amount that produces bands of substantially equal intensity after the composition is separated by gel electrophoresis and stained with a detectable label, and further comprising an additional single fragment present in an amount that produces a band visibly brighter than the bands of substantially equal intensity.

64. (New) A kit comprising the composition of claim 63.
